PROFILE

Fresher with an Integrated MTech in Software Engineering focused on Machine Learning, Computer Vision, and Predictive Analytics, with experience building end-to-end AI and data-driven analytics systems.

TECHNICAL SKILLS

Languages — Python (Pandas, Numpy) | SQL

ML & AI — Scikit-learn | TensorFlow | PyTorch | XGBoost | CNNs

Visualization — Power BI | Matplotlib | Seaborn | plotly | Folium

Tools and Platforms — Git | QGIS | HuggingFace | AWS | Streamlit | PostgreSQL | Fast API

PROJECTS

AI-Powered Rice Leaf Disease Detection System 🔗

- Built a deep learning-based rice leaf disease detection system using EfficientNetB0 transfer learning and TensorFlow.
- Processed and augmented 5,000+ agricultural images using normalization, rotation, zooming, and brightness transformations to improve model robustness.
- Achieved 95%+ classification accuracy and implemented Grad-CAM explainability heatmaps for disease-region visualization and model interpretability.

Geospatial Forest Fire Risk Intelligence using MODIS Satellite Data 🔗

- Developed a wildfire risk prediction system using 60,000+ NASA MODIS satellite records and geospatial analytics techniques.
- Implemented KMeans clustering and XGBoost models for hotspot detection and high-risk wildfire classification.
- Built interactive wildfire heatmaps and spatial visualizations using QGIS and Folium for environmental risk monitoring.

Global COVID-19 Trend Forecasting and Risk Analytics 🔗

- Built a machine learning-based COVID-19 forecasting system using 100,000+ global healthcare records.
- Engineered rolling averages, lag features, and growth-rate metrics for predictive outbreak trend analysis.
- Evaluated Random Forest and XGBoost models and developed analytical visualizations for healthcare risk insights.

CERTIFICATIONS

Microsoft Certified: Security, Compliance, and Identity Fundamentals | Google Project Management

EDUCATION

MTech (integrated) in Software Engineering

Vellore Institute Of Technology

Current CGPA -7.89 / 10

July 2020 – July 2025

Chennai

LEADERSHIP

Photography club, VIT Chennai

Advisory board

Mentored 70+ students in event planning and coordination.

January 2024

Vibrance VIT Chennai

Photography Head

Led a 50+ member team for the university cultural festival.

February 2023
